Global Error Scaling with Rate-Function Calls

Method	**Test 1: p (-)**	**Test 2: p (-)**
Forward Euler	−0.9998	−1.0176
Backward Euler	−1.0002	−0.9842
Explicit midpoint	−2.0188	−2.0000
Implicit midpoint	−2.0035	−2.0116

Exponents were estimated using linear regression [0,10] using runs with step sizes from 0.002 to 0.02.
